

# Our **rights** are essential

**Q** What was the first thing the new Sask. Party government did when they got elected?

**a** They told us we will no longer be allowed to do what we have always had the right to do.

The proposed Essential Services law (Bill 5) and amendments to the Trade Union Act (Bill 6) will take away workers' rights.

The Sask. Party government can provide no good reason for their actions. The government will be voting on these Bills this spring.

We have had the right to be unionized without boss interference for over 60 years. We have had the right to free collective bargaining and the right to strike for over 60 years. Let's keep it that way.

## Say **NO** to Bill 5 and Bill 6.

WE have the right to bargain collectively for wage increases, better hours, good benefits and job security. Thousands of workers, and health care and government workers in particular, will lose that basic right. **GONE!**

WE have the right to strike in order to reach a collective agreement. For thousands of workers ... **GONE!**

WE have the right to provide emergency services during labour disputes, AND WE ALWAYS HAVE. We have never jeopardized the safety of our patients, our customers, and our families. That right ... **GONE!**

WE have a law that protects our secret ballot choice to belong to a union without the boss knowing...**GONE!**

WE have the freedom as workers to make decisions at our workplaces. Imagine your workplace...now imagine the bosses threatening you while giving you their opinions about whether or not you should have a union. Or giving their opinions about YOUR grievances, about YOUR bargaining proposals, or about who you should elect as a union to represent YOUR members. Our freedom to operate as unions without the bosses sticking their noses in it...**GONE!**

**Bill 5 and Bill 6? UNION BUSTING, plain and simple.**

**Act now!**
